

# IOSH Managing Safely - Refresher

## Introduction

The Institution of Occupational Safety and Health (IOSH) is Europe's leading body for health and safety and is committed to promoting protection from workplace hazards at every level. The Managing Safely Refresher certificate issued by IOSH is recognised nationally and identifies the holder as having been instructed in proactive approaches to managing health, safety and welfare.

This refresher course is intended for Managers, Supervisors and Employees who have previously attended the IOSH Managing Safely course. It is intended to provide continual support and a legislative update to management with health and safety responsibilities.

## Course Duration

SSG offer this course over one day.

## Who Should Attend

The refresher course is ideal for those delegates who hold the IOSH Managing Safely certificate, who are looking to refresh their knowledge.

## Course Programme

### Module 1: Thinking back

- Why is it important to manage safely?
- What is your role in influencing safety?
- How can a safety and health management system help?

### Module 2: Leadership

- How can good leadership influence safety and health?
- What are the three essential principles of good practice?

### Module 3: Plan

- What is the 'Plan' stage of a safety and health management system?
- What is a safety and health policy?
- What should be included when planning?

### Module 4: Do

- What is the 'Do' stage of a safety and health management system?
- What does risk profiling mean?
- What needs to be done to implement the plan?

### Module 5: Check

- What is the 'Check' stage of a safety and health management system?
- What data do you collect?
- What's performance measurement all about?

### Module 6: Act

- What is the 'Act' stage of a safety and health and management system?
- Why should you review performance and take action on lessons learned?
- What does continual improvement mean?

### Certification and Assessment

Assessments are carried out throughout the day and all delegates who successfully complete this course are issued with IOSH certificates.

### Suggested Follow on and Complementary Courses

- NEBOSH National General Certificate in Health and Safety
- Risk Assessment Workshop
- IEMA Foundation Certificate in Environmental Management
