

IOSH Safety for Executives and Directors

Introduction

The Institution of Occupational Safety and Health (IOSH) is Europe's leading body for health and safety and is committed to promoting protection from workplace hazards at every level. The IOSH Safety for Executives and Directors certificate issued by IOSH is recognised nationally and identifies the holder as having been instructed in strategic approaches to managing health, safety and welfare within organisations.

This course replaces and is equivalent to both IOSH Directing Safely and IOSH Safety for Senior Executives.

Attendance will provide a detailed overview of the moral, legal and financial arguments for risk management, devising a risk management strategy and integrating this into the day to day running of the business.

Course Duration

SSG offer this course over one day.

Who Should Attend

This course is intended for Senior Management and Directors with strategic or operational accountability.

Course Programme
