

Temporary Works General Awareness

Introduction

This Site Safety Plus course gives you a broad understanding of temporary works and industry best practice, including good safety risk management.

Course Duration

SSG offer this course over one day.

Who Should Attend

Directors, contract managers, site supervisors, estimators, planners, procurement managers, commercial managers, health and safety professionals who want a better understanding of temporary works and anyone who may be involved in the temporary works process during construction planning.

Course Programme

- Understand what constitutes temporary works and how they are used in construction
- Raise your awareness and improve your understanding of the need to plan for temporary works in construction
- Support your understanding of common temporary works issues
- Gain a greater understanding of the management process for temporary works
- Raise your awareness of the other roles and responsibilities involved in the temporary works process

Certification and Assessment

The method of assessment will be by multiple-choice questions at the end of the course, as well as being expected to be interactive during the course. Successful delegates will receive a CITB certificate, renewable every 5 years.
