

Fire Warden

Introduction

The Regulatory Reform (Fire Safety) Order 2005 requires the 'Responsible Person' to establish appropriate emergency procedures, including safety drills and to nominate a sufficient number of competent persons to implement those procedures. The number of competent persons and level of training will depend on the findings of a Fire Risk Assessment.

This course aims to equip those with responsibilities for implementing these plans with sufficient knowledge to do so safely.

Course Duration

SSG offer this course over one day.

Who Should Attend

This one day course will provide trained Fire Wardens to assist an organisation in meeting their responsibilities under the Regulatory Reform (Fire Safety) Order 2005.

There are no prerequisites for delegates attending this training course.

Course Programme

- Fire statistics and high profile examples
- Relevant legislation with focus on the Regulatory Reform (Fire Safety) Order 2005
- The chemistry of fire; including the fire triangle and classes of fire
- Methods of fire spread in buildings including 'Flashover' and 'Backdraft'
- Fire prevention techniques including housekeeping, storage and safe working practices
- Fire precautions, including compartmentation, fire detection, fire escape strategies and extinguishers
- Emergency planning and drills
- The duties of a 'Fire Warden' including drills, inspection and routine equipment checks
- Practical use of fire extinguishers

Certification and Assessment

Delegates will be assessed on their input during the practical exercise and their feedback. Delegates will receive a certificate of attendance which is valid for three years.
