

CDM: An Overview

Introduction

The Construction (Design and Management) Regulations are designed to:

- Improve construction related health and safety management
- Have the right people for the right job at the right time to manage the risks on site
- Focus on effective planning and manage the risk - not the paperwork

This course gives an overview of CDM Regulations.

Course Duration

SSG offer this course over one-day.

Who Should Attend

Any person or organisation who would like a broad overview of the CDM Regulations.

Course Programme

- CDM overview
- Client duties
- Appointment of duty holders and their respective responsibilities
- Project notification
- Management and control of contractors and subcontractors
- Pre-construction information
- Health and Safety File

Certification and Assessment

Delegates will receive an SSG certificate of attendance on completion.
