

# NEBOSH National Certificate in Construction Health and Safety

## Introduction

The NEBOSH National Certificate in Construction Health and Safety has long been established as the leading health and safety qualification for the construction industry.

Many people take the NEBOSH National Certificate in Construction Health and Safety as a first step in a career in health and safety. It provides a valuable overview, and is a sound basis for further professional development.

## Course Duration

17 days including the revision day, and written exams.  
10 days for delegates who already hold a valid NGC1 qualification (taken within the last 5 years).

In addition to classroom based study, delegates will be expected to undertake a minimum of 58 hours private study time.

## Who Should Attend

This course is suitable for supervisors and managers within the construction industry and is designed to provide a sound breadth of underpinning knowledge that enables them to carry out their health and safety duties more effectively.

The standard of English required by delegates' studying this qualification must be such that they can both understand and articulate the concepts contained in the syllabus.

## Professional Membership

Holders of the NEBOSH National Certificate in Construction Health and Safety qualification meets the academic requirements for Technical membership (Tech IOSH) of the Institute of Occupational Safety and Health (IOSH - [www.iosh.co.uk](http://www.iosh.co.uk)) and Associate membership (AIIRSM) of the international Institute of Risk and Safety Management (IIRSM - [www.iirsm.org](http://www.iirsm.org)).
